Certificate of Participation

participate as a mentee in the

Mentoring Programme of the University of St.Gallen

in the 2023-2025 cycle.

The aim of the Mentoring Programme of the University St.Gallen is to support the personal and professional development of students.

Students at the Bachelor's, Master's and Doctoral level receive an individual mentoring through volunteering mentors for two years. The tandem individually agrees on the scope and focus of the mentoring. The mentoring is based on the individual goals and needs of the mentee as well as on the possibilities and competences of the mentor.

As mentees, students fulfil duties to foster the development of a sustainable mentoring relationship. In addition to writing semester reports, it is the mentee's responsibility to establish contact with the mentor and to maintain active communication. The mentoring relationship requires a high degree of commitment in conversations, adherence to agreements and a willingness to self-reflect.

UNIVERSITY OF ST.GALLEN (HSG)

Carolin König
Head of Mentoring Programme
